Group Techniques for Program Planning: A Guide to Nominal Group and Delphi Processes free download

Generating ideas
moderator directs everyone to write ideas in brief phrases or statements

Recording ideas
round-robin feedback session to concisely record each idea. Moderator documents all ideas

Clarify, rank ideas
participants express relative importance of each idea

Individuals vote privately to prioritize the ideas, using moderator-created criteria
votes are tallied to identify ideas that are rated highest by the group as a whole

Moderator creates tally sheet
the most highly rated ideas are the most favoured group actions

Each participant selects the five most important items from the prioritized list
each ranks those five ideas, with the most important receiving a rank of 5, the least a 1.
